"The Northwestern billed ice at \$1 a toe. That furnished by the Chicago. Milwaukee & St. Paul was billed at 11.50, with a rebate of \$1 being granted of a counter claim. In the case of the Effe it was \$1.25. This gave large profit to the Armour lines."

NECRO HICHWAYMAN PROMPTLY HANCED BY MOB

Cairo, Ill., May 12 .- Tom Witherspoon, a negro, was taken from officers at Belmont, Mo., 15 miles below Cairo, at 6 o'clock this evening, by a mob of several hundred persons and hanged in the public square to a large swing.

Early this morning a negro said to be Witherspoon, who only recently returned from the Missouri penitentiary, went to the home of Fred Hess, three miles be-low, Belmont, and at the point of a rifle demanded \$000. Hess, who was former-ly a member of the legislature, told the negro he did not have that much money in the house.

The negro ordered him to go to Bel-

mont and get the money. He compelled Hess to hitch up a horse and buggy and rdered him to get in with his wife and

ordered him to get in with his wife and child.

The negro then saddled another horse, and, mounting it, told Hess to drive toward Belment, and when that place was near the negro forced Mrs. Hess and the child to get out of the buggy and enter a deserted shanty.

The negro then told Hess to drive to Belment and to send the money back by a negro preacher inside of one hour or he would kill his wife and child.

Hess hurried to Belment and got the money and sent it back with a negro preacher. The deseprado immediately mounted the horse and rode up to the Iron Mountain tracks.

A posse was organized at once of Belment and Columbus citizens, and a small party followed the negro in a switch engine and discovered that he had taken refuge in the swamps around First lake.

Wampa was blown to bits, fragments of him being found several hundred feet away. Two men working nearby were also blown to pieces, their remains filling seven sacks.

Four others working about 100 feet distant were instantly killed, though their bodies were not mutilated.

The drift on which the unfortunate men were working was completely littered with human fragments. While Foreman Thomas Varden was groping in the dense smoke in an effort to rescue the men, his hand came in contact with something soft, which, upon investigation, proved to be half of the top of Wampa's head, hanging to an electric light wire over 100 feet distant from the scene of the explosion. Several of the rescuing party were overcome by the terrible sight.

PREPARE FOR SUMMER

Assist nature in getting the system ready for the depressing Summer months.

The change of Nature from Winter and Spring to Summer is no greater than the change that takes place in our physical systems at this season, and few can undergo it without some manifestation of disorder. Some have no particular ailment but are just worn out and tired, with their energies so depleted that they are totally unfit for work or physical exertion

of any kind. The appetite is variable, they are peevish, hysterical and often unreasonable, the digestion is imperfect, the stomach deranged and altogether they are mere drags in their every day life. To others the return of Summer means the return of disease, for warm weather is sure to force out the hidden poisons and seeds of disease which have accumulated in the blood during the Winter, and some old chronic trouble makes its appearance. Boils, Eczema, Tetter, Acne, scaly eruptions, rashes, pimples, etc., break out also at this time, and the heated season is made worse by the burning and itching of these skin tortures.

During the winter months we live a shut-in life as much as possible, breathing the impure air of closed rooms and heated offices; we indulge our appetites to the fullest, eating more of the heavier, richer foods and take a great deal less exercise.

As a result the blood grows thick and sluggish, the Liver, Kidneys, Bowels and other avenues of bodily waste become inactive and dull, failing to carry out the poisons which form in the system, and these are absorbed by the blood. Then when warm weather comes the blood is stirred to quicker action and begins to throw off these poisons, and they find lodgment in the system and produce disorders of various kinds.

The time to prepare for Summer is before any warning symptoms are felt or the seeds of disease have time to get too deeply rooted in the blood. The blood should be cleansed and every part of the system put in good working order, so we can start the trying summer season fully prepared to withstand the disorders and diseases it brings.

S. S. S., the recognized king of blood purifiers, is the remedy with which to prepare the system for sum . It not only builds up the constitution, but goes down into the blood and searches out all poisons that have accumulated during the Winter, as well as those that may be lurking there from old chronic troubles. It is a tonic and appetizer without an equal,

and in cases of debility, weakness, nervousness and that fagged out, run-down condition it is unexcelled. Every part of the system is toned up and rejuvenated by this great remedy. There is one feature of S. S. S. that is possessed by it alone; it is entirely vegetable, while other blood medicines on the market contain Potash or some other harmful mineral ingredient to derange the stomach and digestion, or otherwise damage the system.
